FACILITATOR PROMPTS | DANIEL — READ, OR USE AS A GUIDE

7:20 PM — OPENING: COMMUNITY GOALS & OPPORTUNITY (~3 minutes)

*"Good evening, everyone — welcome to **AI After Hours**. My name is Daniel, I'm your host tonight — I'll be introducing our speakers and guiding our networking breaks — and on behalf of **Visible Builders**, thank you for being here. Give yourselves a round of applause for showing up — not just watching online, but being in the room."*

*"We built this community here in Medellín for one simple reason: **the best opportunities don't come from an algorithm — they come from a conversation** with the person sitting next to you."*

*"Our goals are three, and they're simple. **One — Real talks:** not theory, not hype; people actually building with AI, sharing what worked, what failed, and what it cost them. **Two — Real experiences:** every speaker tonight is a practitioner — what you hear tonight, you can use tomorrow morning. **Three — Real connections:** in this community, a friend from this room got a job, and a builder from this room got a new client. That's what happens when the right people meet in the right room."*

*"So here is your opportunity tonight: **don't leave with only notes — leave with people.** Tonight you'll hear three talks. Between them we'll stop and connect: I'll invite someone from the audience to share what they're building and what they're looking for. Listen carefully — the person you need might be two seats away."*

"And it's simple tonight: walk up to someone, say your name, what you're building, and what you're looking for. That's it — that's how connections start here."

*"Three quick things: please silence your phones; talks are 20–25 minutes; and after the last talk the room stays open for networking — that's where the magic happens, so don't rush out. Medellín is becoming a city where builders meet, share, and grow together. Tonight you're not just attending an event — **you're joining the build**. Let's get started."*

60-second version (if short on time): "Welcome to AI After Hours by Visible Builders. I'm Daniel. We exist for three things: real talks from people actually building with AI, real experiences you can use tomorrow, and real connections — in this room people have found jobs, clients, and partners. Tonight: three talks and two moments to connect with each other. Don't leave with only notes; leave with people. Let's begin."

In Spanish, if the room needs it: *"Esto es AI After Hours de Visible Builders: charlas reales, experiencias reales y conexiones reales — aquí la gente ha encontrado trabajo, clientes y socios. Esta noche, no salgan solo con notas: salgan con personas."*

NETWORKING BREAKS — 10 MINUTES EACH (~3 min on mic + ~7 min in pairs)

Break 1 · 7:50 PM — "What are you building?"

- Say: *"Who wants to share, in 30 seconds: who are you, and what project are you building right now?"* Pick **1 volunteer**, give them the mic (30–60 sec max).
- One follow-up only: *"And what do you need right now to move it forward?"* Repeat their name + project loudly so the room can find them later.
- Launch pairs: *"If you can help them — find them now. Everyone: 7 minutes, turn to someone you don't know, introduce yourself, and ask what they're building. Go."*

Break 2 · 8:25 PM — "What do you expect from tonight?"

- Say: *"Who came tonight looking for something specific — a client, a partner, a job, an answer?"* Pick **1 volunteer**, mic, 30–60 sec.
- Ask: *"What would make tonight a win for you?"* Repeat it back to the room.
- Launch pairs: *"Who heard something they can help with? Go find that person. 7 minutes — introduce yourself to someone new. Go."*
- **If nobody volunteers in 10 seconds:** pick a friendly face — *"You, with the smile — what brings you here?"* Keep it warm, keep it moving.

SPEAKER INTRODUCTIONS (under 40 seconds each — read as written)

1 · 7:30 — Marylin Alarcon: *"Our first speaker tonight is **Marylin Alarcon**, Lead R&D Engineer, with **'AI Lowered The Floor, Our Work Is Now The Ceiling.'** Please welcome Marylin."*

2 · 8:00 — Salome Arboleda: *"Our second speaker is **Salome Arboleda**, Software Developer & Tech Enthusiast. She's building **real-time quantum apps with AI** — and she'll show us real use cases. Give it up for Salome."*

3 · 8:35 — Jacobo Blandón: *"Our final speaker tonight is **Jacobo Blandón**, XR, Blockchain & Digital Product Builder. His talk: **'Turn complex ideas into digital products that actually work.'** Let's make some noise for Jacobo."*

After each talk: *"Round of applause for [Name] — find them in the networking at the end."* **Angel** gives speakers their **5-minute warning** — Daniel just hosts the intro.

8:55 PM — CLOSE & OPEN NETWORKING

*"That's our last talk — one more round of applause for all three speakers tonight. Remember what I said at the start: **don't leave with only notes, leave with people.** The room is now open — go find the speakers, meet someone new, and exchange contacts."*

*"If tonight helped you, join the **Visible Builders WhatsApp community** — QR on screen — so the conversation continues after tonight. Thank you for building with us. This is AI After Hours. See you at the next one — **now go meet someone worth meeting**."*

CLOSEOUT | DONE MEANS CONNECTIONS, NOT JUST NOTES

- ■ Thank speakers by name; remind room of WhatsApp QR. Stay for networking and make 2–3 intros.
- ■ Quick debrief with Angel after: attendance, what worked, one improvement for next time.
